# Bachelor's Degree in Law

## Transforming the law.

### Why study this degree at Tec?

You will develop a multidisciplinary, international, comparative, and future-oriented perspective that enables you to understand legal phenomena in global contexts, anticipate regulatory changes, and actively contribute to the development of innovative legal solutions through critical thinking and reflection.

### Is this your path?

If you are passionate about addressing the legal challenges of a complex, interconnected, and constantly evolving world; if you aspire to interpret, apply, and reinvent the law with a global outlook, strong theoretical foundations, and a deep ethical commitment, the B.A. in Law at Tec is for you.

We are looking for individuals ready to become leaders who transform the legal profession through innovation, analytical thinking, and empathy toward social realities.

### Imagine this:

Promote legislative initiatives with an innovative and inclusive approach. Mediate and resolve disputes, and negotiate contracts and treaties. Advise businesses and projects from an international perspective. Lead legal strategies for companies and civil society organizations. Administer justice or establish your own law firm.

**At Tec, that future starts today.**

### What makes this program unique at Tec:

- Learn law through hands-on experiences such as legal clinics, mock trials, international competitions, and projects with partner organizations.
- Specialize in areas such as international arbitration, law and technology, regulatory compliance, or strategic litigation.
- Complete professional internships at international organizations such as the WTO or the Inter-American Court of Human Rights.
- Access 350+ exchange agreements in 48 countries, including international experiences and master's degree opportunities during your studies.
- Participate in international programs and professional residencies with postgraduate opportunities at prestigious universities.
- Apply for academic excellence, leadership, entrepreneurship, and social impact scholarships.

### Your career field is full of possibilities. Here are a few:

Artificial intelligence, data analysis, and global shifts are transforming the legal field and decision-making processes.

As a graduate of Tec's Law program, you can pursue careers in:

- Corporate legal consulting
- Public service
- Independent practice or law firms
- Judicial administration
- Specialized consulting

### Skills you'll develop:

- You will build a strong legal foundation while developing key skills such as critical thinking, leadership, legal reasoning, and the ethical and strategic use of technology in the practice of law.
- Strengthen your legal analysis, argumentation, and interpretation skills.
- Explore emerging areas of law with a collaborative, entrepreneurial, and socially driven mindset.
- Participate in international alliances such as Reach Alliance and Triada to help solve global challenges.

### Formarás parte de algo más grande

TOP **151** Law & legal studies (QS 2026).
