

**Imagine being part of the team that rescues the world with the creation of new vaccines.**

This is just part of what you can achieve by studying the **B.S. in Biotechnology Engineering** at Tecnológico de Monterrey.

## Competencies you will develop

- Creation of solutions to current health, food and environmental issues
- Development of Biopharmaceuticals
- Production of functional foods and nutraceuticals
- Use of biotechnology tools to reduce pollution

## Careers

The best thing about studying at Tec is that you will be able to design your profile aligned with your interests, and work in a variety of fields, such as:

- Food and beverage industry
  - Pharmaceutical industry
    - Agri-food sector
  - Environmental sector
- Research, development and innovation centers

**But you set the limits**

## Is this the right path for you?

If you want to contribute to the well-being of humanity and the planet, and you are also passionate about technology and living beings, this could be your path.

## YOUR DEGREE AT TEC

Your journey starts here

## Why study the B.S. in Biotechnology Engineering at Tecnológico de Monterrey?

On entering Tec, you will form part not only of a community, but also of an entire ecosystem that offers you:

- Laboratories equipped with cutting-edge technology
- Specialization in the different areas of biotechnology
- Technological innovation management
- National and international research stays
- Biotechnology-based entrepreneurship

## Study abroad

We want you to have an international profile and, to achieve this, we have signed agreements with more than 100 top universities in 20 countries, such as:

Harvard Medical School  
Rice University

Cornell University

Institut Sup'Biotech de Paris

University of Leeds

Technische Universität München

Kyoto University

National University of Singapore

The University of Sydney

## Network

As a student, you will have the opportunity to develop projects in your degree program with leading companies and **education partners**, such as:

- FEMSA
- Coca-Cola México
- PiSA Farmacéutica
- Tec-BASE
- Solena

## Specialize

While studying at Tec, you will have the opportunity to choose a concentration, gain experience, and create a unique, tailor-made professional profile. The available options include:

- Biopharmaceutics
- Functional Genomics and Synthetic Biology
- Bio-entrepreneurship and Circular Economy
- Development of Nanodevices
- Tissue Engineering
- Development of New Chemical and Biotechnological Products
