

Imagine designing smart electronic systems that will manage product development.

This is just part of what you can achieve by studying the **B.S. in Electronics Engineering** at Tecnológico de Monterrey.

Competencies you will develop

- Innovation in developing products and electronic systems
- Modernization of telecommunications systems and services
- Updating of high-efficiency energy systems

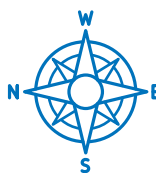

Careers

The best thing about studying at Tec is that you will be able to design your profile aligned with your interests, and work in a variety of fields, such as:

- Companies that develop smart electronic products and devices
- Telecommunications
- Development of efficient energy systems
- Own tech company
- Development of technology solutions for society or the environment

But you set the limits.

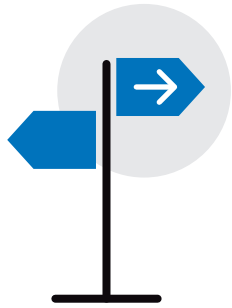

Is this the right path for you?

If you like **technology** so much that you are one of those people who doesn't just use a device, but wants to know how it works in order to **create new equipment** later on, this could be the degree for you.

YOUR DEGREE AT TEC

Your journey starts here

Why study B.S. in Electronics Engineering at Tecnológico de Monterrey?

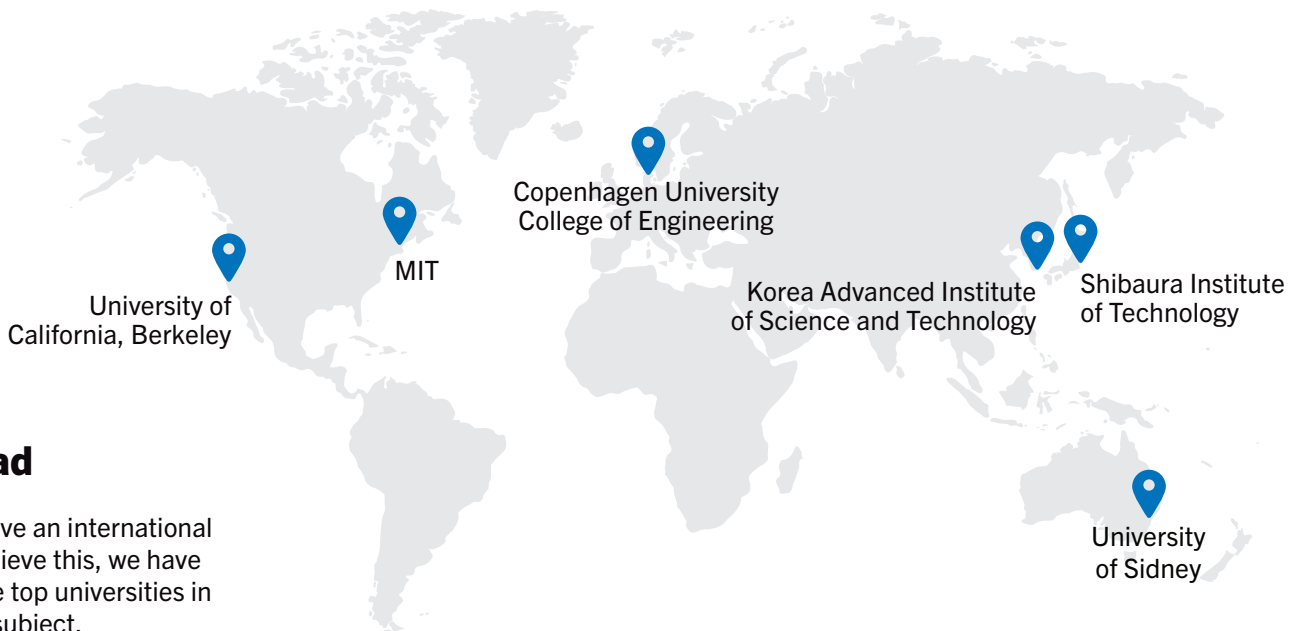

On entering Tec, you will form part not only of a community, but also of an entire ecosystem that will allow you to:

- Student associations NAO Team, Noematix
- State-of-the-art laboratories

Study abroad

We want you to have an international profile and, to achieve this, we have partnered with the top universities in the world for this subject.

Network

As a student, you will have the opportunity to develop projects in your degree program with leading companies and education partners, such as:

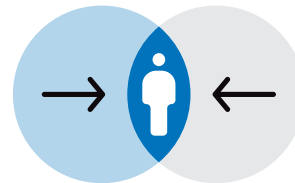

- Cisco
- Huawei
- AT&T
- Texas Instruments
- Intel
- Continental

Specialize

While studying at Tec, you will have the opportunity to choose a **concentration**, gain experience, and create a unique, tailor-made professional profile. The available options include:

- Modern and Emerging Telecommunications
