B.S. IN ENGINEERING PHYSICS

This is the first step to become what you dream of being.

Competencies you will develop

Imagine revolutionizing the world by designing the technologies of the future.

This is just part of what you can achieve by studying the **B.S. in Engineering Physics** at Tecnológico de Monterrey.

 Characterization of physical phenomena in fundamental and applied science

 Identification of physical phenomena with scientific and technological innovation

Careers

The best thing about studying at Tec is that you will be able to design your profile aligned with your interests, and work in a variety of fields, such as:

- Industrial and public sectors related to science and technology
- Research centers
- Consulting for innovation and development
- Quantum technologies

But you set the limits

Is this the right path for you?

If you are passionate about science and technology, are always looking for answers to the different natural phenomena, and also have an inquisitive spirit, this is the degree for you.

Follow your passion and discover everything Tec can offer you!

B.S. IN **ENGINEERING PHYSICS**

YOUR DEGREE AT TEC

Your journey starts here

Why study the B.S. in Engineering Physics at Tecnológico de Monterrey?

On entering Tec, you will form part not only of a community, but also of an entire ecosystem that offers you:

- SACS, ABET and CACEI accreditation
- Curricular flexibility
- Excellent physical infrastructure in both science and engineering areas
- Solid preparation in science
- Solid competencies in physics, mathematics and computer science

We want you to have an international profile and, to achieve this, we have partnered with the top universities in the world for this subject:

University of Illinois at Urbana-Champaign

École polytechnique fédérale de Lausanne

National University of Singapore

Networking

As a student, you will have the opportunity to develop projects in your degree program with leading companies and education partners, such as:

- Grupo Xignux
- Schneider Electric
- Schlumberger
- Grupo Alfa

Specialize

While studying at Tec, you will have the opportunity to choose a concentration, gain experience, and create a unique, tailor-made professional profile.

The available options include:

MIT

- Photonics and Quantum Technologies
- Clean Energy and Decarbonization
- Artificial Intelligence for Data Science
- Aeronautical Engineering
