

Imagine creating a tool that allows you to invest in companies that pursue real sustainable development.

This is just part of what you can achieve by studying the **B.A. in Economics** at Tecnológico de Monterrey.

Competencies you will develop

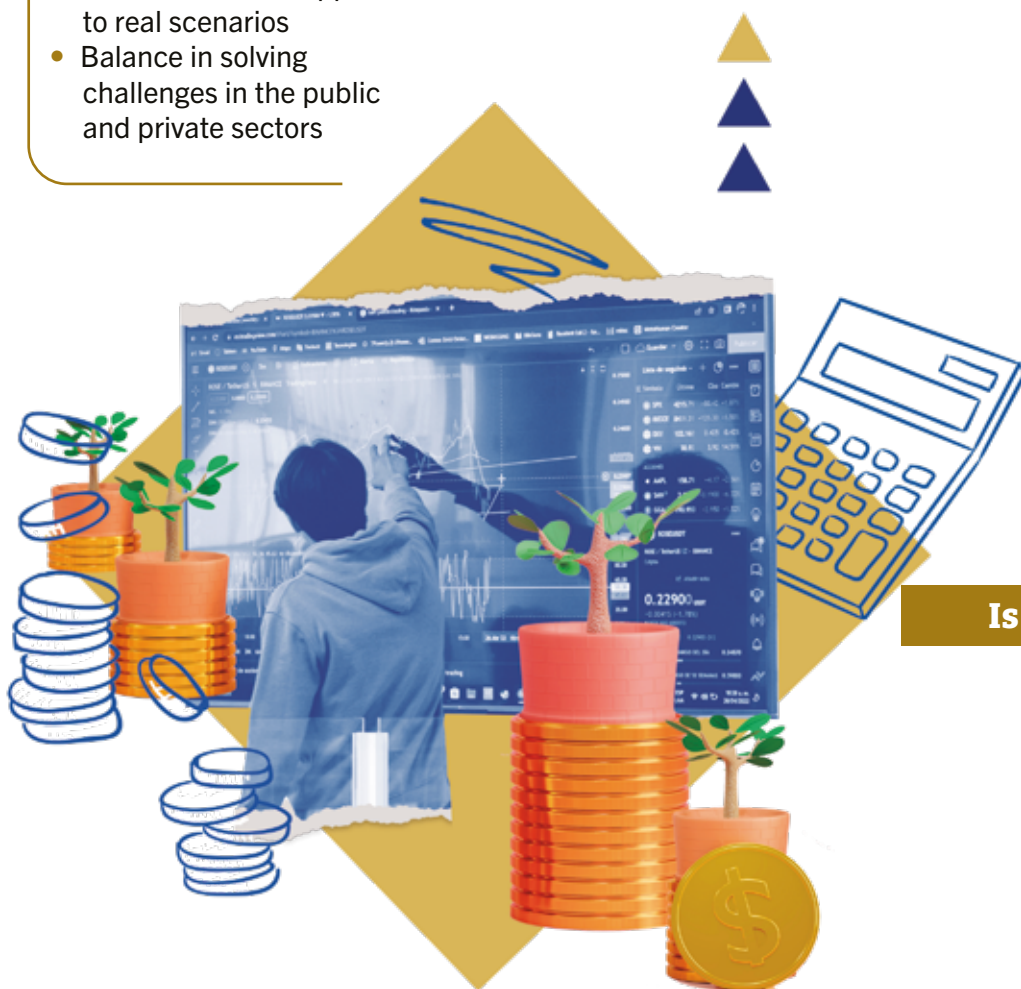

- Enriched learning for data-based decision-making
- Skills that can be applied to real scenarios
- Balance in solving challenges in the public and private sectors

The best thing about studying at Tec is that you will be able to design your profile aligned with your interests, and work in a variety of fields, such as:

- Financial institutions
- Public and private sectors
 - Strategic consulting
- National and international organizations (IADB, OECD, World Bank)
 - Research centers

But you set the limits

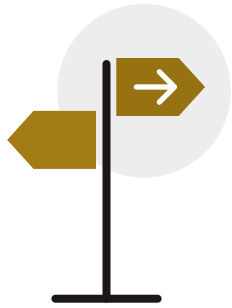

Is this the right path for you?

If you are interested in making the best use of resources, analyzing individual and collective decisions, and proposing solutions to contribute to global growth, you're on the right path.
