

March 15, 2022

Dear student community,

We appreciate your support and collaboration so that our return to classes and in-person activities is taking place responsibly and successfully.

Considering the current panorama of the pandemic and that, at Tec, we have one of the highest percentages of vaccination, **starting today, Tuesday, March 15, we will update some protocols:**

- **You will not longer need to answer the health questionnaire** in the App, or **show the green QR code** in the access filter.
- The **criteria on vaccination for face-to-face attendance are maintained**, in accordance with **the conditions published in our official channels** and the section “Statements” from the [Conscious Return site](#).
- We are entering a new phase, so **we will update the preventive** protocols according to the **regulations of each state** (simplification of sanitary filters, signaling of spaces, use of the face masks in outdoor spaces).

These measures are the result of satisfactory compliance with preventive protocols and contribute to the objective of improving your in-person experience. As we have always mentioned, our priority is to take care of the health of our community, especially of people who are not fully vaccinated.

We thank the community for their commitment, **95% of our students and 98% of the teaching and administrative staff have registered their vaccination**, as this action has undoubtedly helped us promote healthy learning environments and maximize attendance at all our spaces.

We remind you that those **who present symptoms of COVID-19 must refrain from participating in institutional activities in person**. We trust your honesty.

Remember to check the [Conscious Return site](#) and contact your tutor, mentor, Career or Program director to receive more information.

We are glad to see the campuses and venues full of life with your presence!

Tecnológico de Monterrey

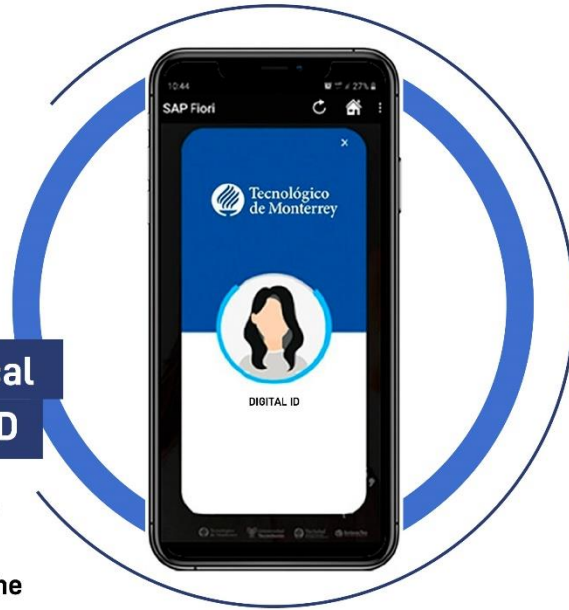

UPDATE OF THE ACCESS PROTOCOL FOR STUDENTS

As of March 15, 2022, you will be able to enter the campus or headquarters

showing only your physical credential or the digital ID

of the SAP Fiori Client App.

- ✓ You will **not longer need to answer the health questionnaire** in the App, or **show the green QR code** in the access filter.
- ✓ The **criteria on vaccination for face-to-face attendance are maintained**, in accordance with the **conditions published in our official channels** and the section "Statements" from the Conscious Return site.
- ✓ We are entering a new phase, so **we will update the preventive protocols** according to the **regulations of each state** (simplification of sanitary filters, signaling of spaces, use of the face masks in outdoor spaces).

We are glad to see Tec de Monterrey full of life with your presence!!
